NORTH YORKSHIRE MOORS RAILWAY

'Lucie' template sheet 1 of 2

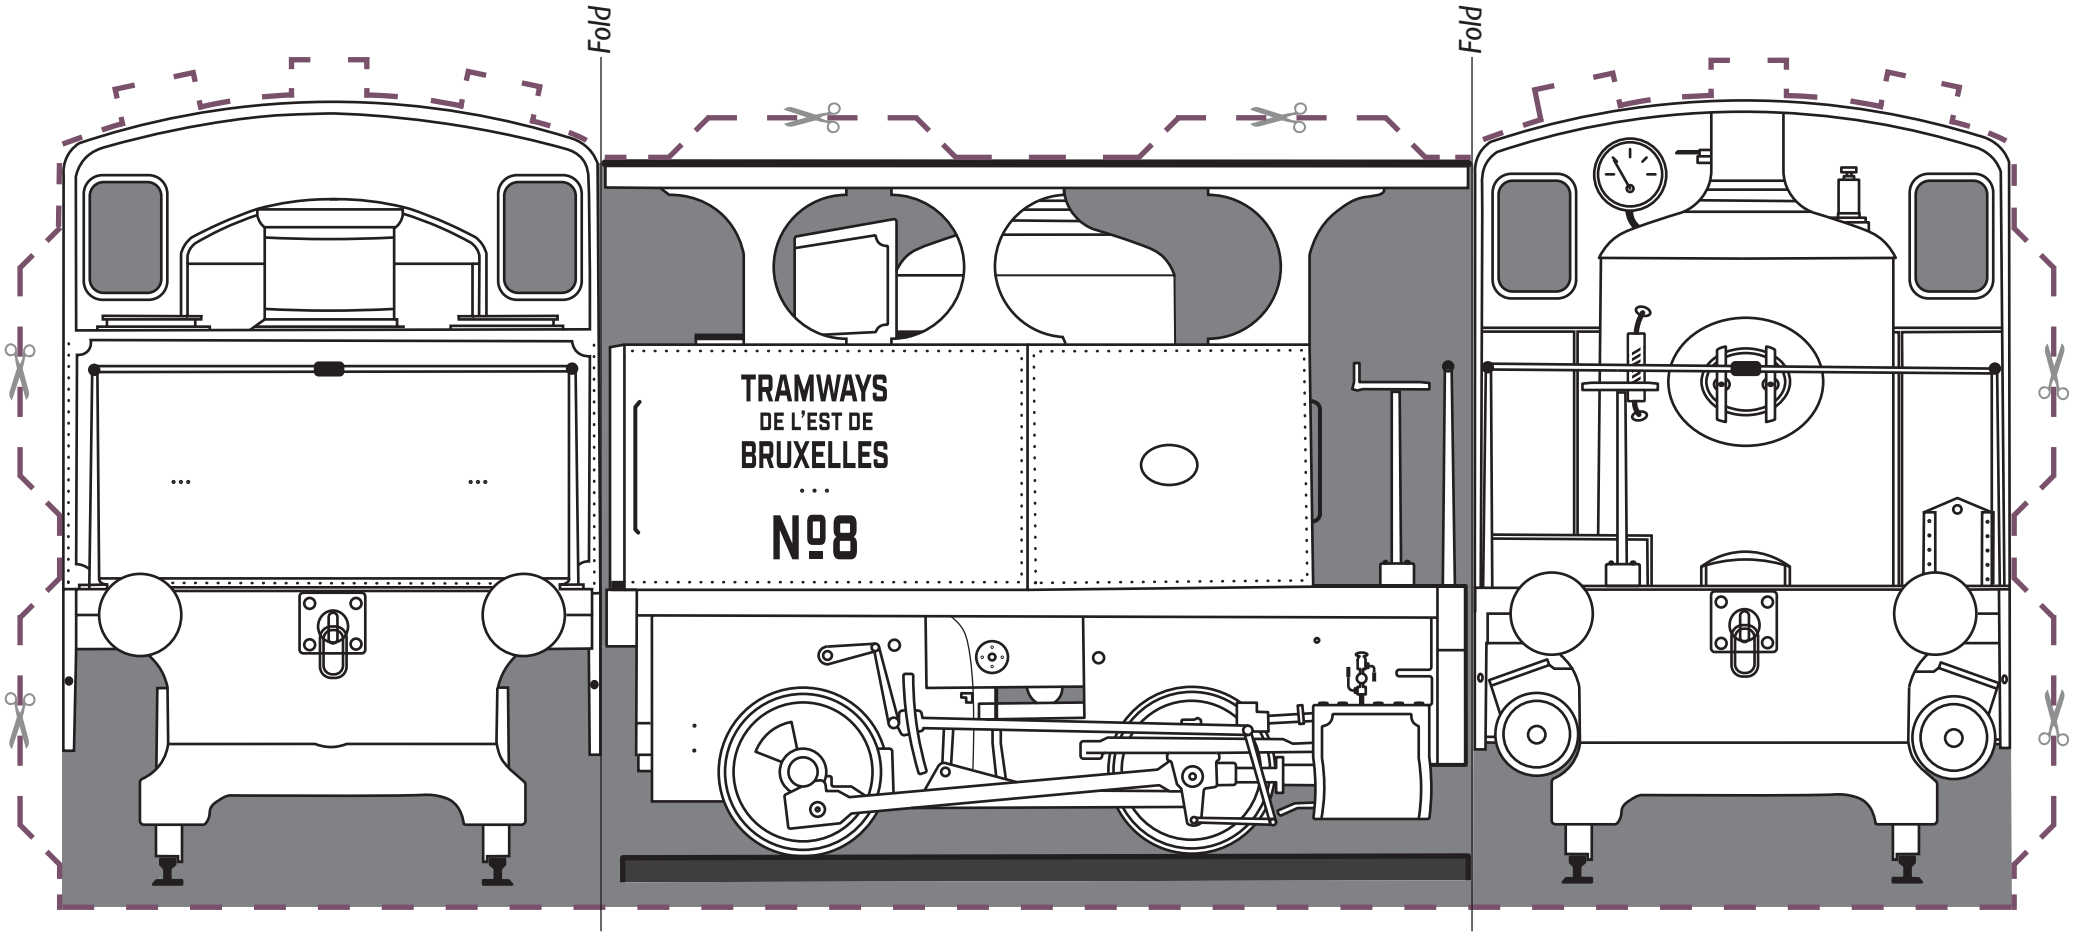
MAKE A MODEL OF No. 8 *'LUCIE'*

WHAT YOU'LL NEED...

- A Yorkshire Tea or cereal box
- Scissors
- Colouring Pencils/Felt Tip Pens
- Glue stick or PVA glue
- Printed 'Lucie' templates

Suitable for ages 5-11.

If you're using sharp scissors to cut your cardboard, you may need an adult to help you!



NORTH YORKSHIRE MOORS RAILWAY

'Lucie' template sheet 2 of 2

MAKE A MODEL OF No. 8 *'LUCIE'*

INSTRUCTIONS

1. Print the two 'Lucie' template sheets. Use setting 'Actual size' if available in your printer dialog.

2. 'Lucie' is traditionally painted in green, but you can use your imagination to make it any colour you like. Use felt tip pens, crayons or colouring pencils to design a colour-scheme that you think suits a little tram engine.

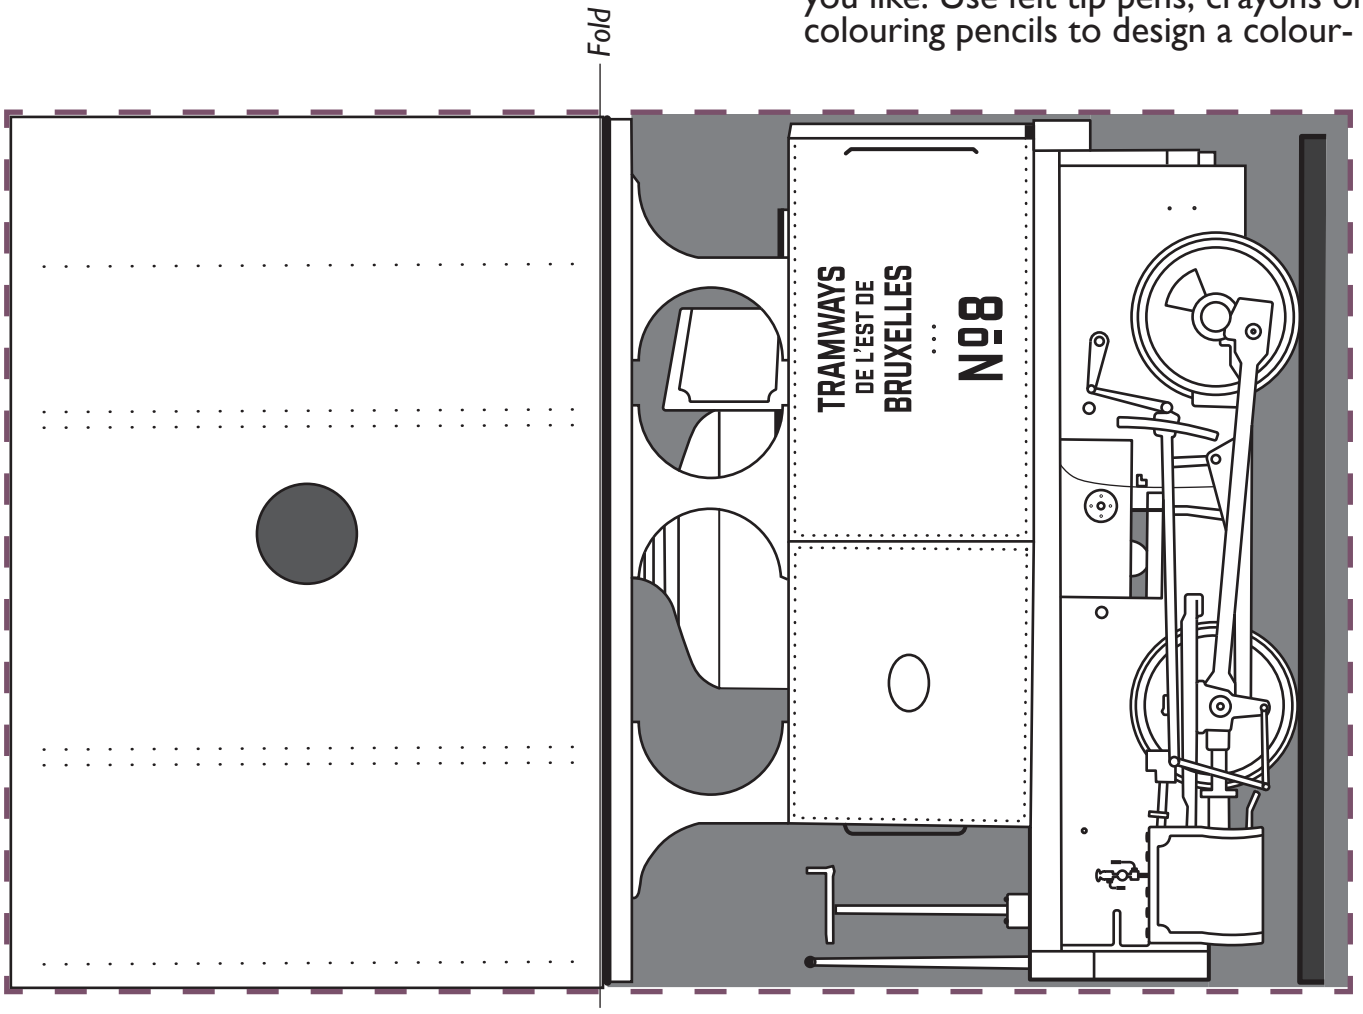
3. Glue the coloured in parts on to an opened out Yorkshire Tea or cereal box and leave to dry.

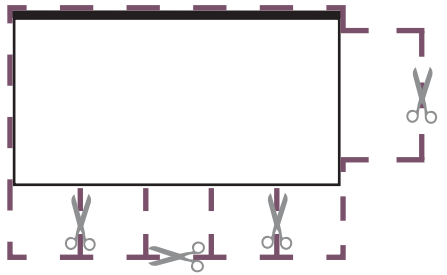
4. Once dry, carefully use a pair of scissors to cut along the dashed lines.

5. Fold the layout in to the shape of 'Lucie' and use the extra tabs to glue the parts together.

6. Roll the chimney section around a thick pen and glue together before glueing to the roof.

7. Your 'Lucie' model is complete! Why not ask a parent/guardian to share with us on social media, with **#nymr**.





Chimney: If you cut the hole out on the roof panel, you can hide the gluing inside the model.
